

ELECTRICITY USAGE CALCULATOR FORM

Appliance	Usage	Questions	Answers	Estimated Daily Usage
AC Unit	3 kWhs/hour	How many hours do you run your AC each day?		
Window AC	~1 kWhs/hour	How many hours do you run your AC each day?		
Electric Heater	~10 kWhs/hour	How many hours do you run your heater each day?		
Space Heater	1.5 kWhs/hour	How many hours do you run your space heater each day?		
Computer/Printer	0.5 kWhs/hour	How many hours do you use your computer each day?		
Clothes Dryer	~4 kWhs/load	How many loads would you run your clothes dryer each week?		
Electric Stove	2.3 kWhs/hour	How many hours do you use your stove each day?		
Television ~50"	0.5 kWhs/hour	How many hours do you watch TV each day?		
Game System	0.01 kWhs/hour	How many hours does your game system run each day?		
Dishwasher	~1.5 kWhs/hour	How many hours does your dishwasher run each day?		
Energy Star Dishwasher	0.5kWhs/hour	How many hours does your dishwasher run each day?		
Clothes Washer	~1.75 kWhs/load	How many loads of laundry do you wash each day?		
Older Fridge	200 kWhs/month	How many refrigerators do you have?		
New Energy Star Fridge	50 kWhs/month	How many refrigerators do you have?		
Microwave	~16 kWhs/hour	How many hours do you use your microwave each day?		
Coffee Maker	~0.15 kWhs/brew	How many brews do you make each day?		
Incandescent Lights (60 Watt)	~0.15 kWh/hour	How many incandescent bulbs do you have in your home? How many hours do those bulbs run each day?		
LED Lights (25 Watt)	~0.025 kWhs/hour	How many LED bulbs do you have in your home? How many hours do those bulbs run?		
Phone Chargers	~0.15 kWh/full charge	How many phones are charged each day in your household?		

Total Daily Usage in kWhs
